

Salford Street

Well I was walking, down Salford St
Looking for my friend I was gonna meet
Then I heard "Girlfriend over here"
"We're gonna party in the street"

Now it's a summer evening on Salford Street
I'm getting down with my friends to that crazy beat
Come on lets party on the street

Now Uncle Joe, he brought his old guitar
We'll dance by the light of the neighbour's car yeah
It's gonna be a memory we can keep
Come on lets party on the street

Now it's a summer evening on Salford Street
I'm getting down with my to that crazy beat
Come on lets party on the street

My girls have just arrived, now watch the party come alive
We're getting ready to play, till the break of day yeah
Come on let's move it to the beat
The night we partied on the street

Now it's a summer evening on Salford Street
I'm getting down with my to that crazy beat
Come on lets party on the street

Ode to the World

Peace, love and Harmony
Rich man, poor man, set your spirit free

Lover, lover, take my hand
Together we'll find our promised land
Sister, throw your troubles away
Tomorrow is a beautiful day

There's enough in the world for us all to share
Why do we pretend, that we just don't care
People starving and dying
So much fighting and lying
Do we pretend, pretend, we just don't care

Do you hear the cry of dying men?
Starving children, living in the stench
Who gives the power to our government?
Who gives the power and love to fellow man?

How do we thank our precious earth?
She gives us life we give her hurt
Peace, love and Harmony.....

Harmony

I don't look like you
I don't speak the way you do,
And I, I don't feel like you do
Or love.. like you do

I am what I am, no matter what you say I give a dam
I will be loved, I will be myself

Sitting chilling hanging I'm jamming, with my friends
I can't remember just how long its been
but years turn to days again and again
I love you, you love me together we make such
HARMONY... HARMONY

I don't look like you
Or love, like you do, like you do

Foolish Games

What should we do now? What could I say?
How shall we take this? What shall we play?
What shall we play?

The games they play, those foolish, foolish games

It's time to ponder, once again
I'm here with you, with you my friend
What shall we play?

The games they play, those foolish, foolish games
The games they play, those foolish, foolish games
Foolish games

Don't take my heart, you'll take me apart
Till were breaking away from the games we play

The games they play, those foolish, foolish games
The games they play, those foolish, foolish games

It's fantastical to let it go
It's magical just to know
They're all just games

The games they play, those foolish, foolish games
The games they play, those foolish, foolish games

It Don't Matter

You don't love me, it don't matter now

What the hell am I doing here,
What the hell's your point, and do I really care,
You don't love me anymore
Who the hell do you think you are?
Acting like some kind of movie star,
It don't matter now

You don't love me, you don't care for me,
You don't give to me or share with me
It don't matter now, you don't love me anymore

(You don't love me)

You don't love me, or you would've taken better care of me
I don't love you I don't love you anymore
You don't love me, And you should have taken better care of me
I don't love you, I don't love you, I don't love you anymore

Did you think, I'd always stay
No matter what you did no matter what you say
No no no

What the **** did you think I'd do
The day I left, we were thru
It don't matter now

I don't love you, I don't care for you,
I don't give to you or share with you
It don't matter now

You don't love me, you don't care for me,
You don't give to me or share with me
It don't matter now

Burn Me Down - Part I, II & III

I needed my soul to sing
So I kept it locked within my past
I wasn't moving fast
For me love is my only fear
But when I feel you take me there, it shows
I want you to know, I'm coming along

So touch me now, touch my soul, don't burn me down
Touch me now, touch my soul, don't burn me down
So touch me now...

Don't burn me down (This heart is running free)
Don't burn me down (Cause I don't want you here just to..)
Don't burn me down (This heart is running free)
Don't burn me...

We're the rock that's ready to roll
We're the fire burning out of control

So touch me now, touch my soul, don't burn me down
Touch me now, touch my soul, don't burn me down

Don't burn me down (This heart is running free)
Don't burn me down (Cause I don't want you here just to..)
Don't burn me down (This heart is running free)
Don't burn me...

Touch me now, touch my soul, don't burn me down
Touch me now, touch my soul, don't burn me down
(So touch me now, touch my soul, don't burn me down)
(Touch me now, touch my soul, don't burn me down)
So touch me now...

I need my soul to sing, and it's you that makes me ring
And I've found, can't keep my feet on the ground
Don't burn me down
Lately I've found, can't keep my feet on the ground
Don't burn me down

Hullo

Hullo how you going? Is that a little leg your showing?
You're just so sweet, why don't you meet me later...

I'm not a sweet little lady from some sweet little place
And I'm not looking for some loving....so get out of my face

Hullo what you saying? What's the silly game you're playing?
You're just so sweet why don't you meet me later?

Now I'm a hot-blooded woman in every way,
You think your man enough to take me... or so you say

Please me, tease me, take a number then leave me
Move me loose me, touch my groove thing

You think your man enough to take me,
You know that you can't break me,
Move me loose me, touch my groove thing,

I'm a hot blooded woman in every way

Without you

Don't take me away from here
Don't send me away from here
I'm afraid of the light, I'm afraid of the dark
Afraid to live afraid to die
Oh..... Without you

Please stay please stay with me here
I don't know if I could live another day without you here
I'm afraid of the light, I'm afraid of the dark
Afraid to live afraid to die
Oh.....Without you

I don't want to carry on without you
I don't want to be strong without you
I close my eyes, I close my eyes

Then you smile, you smile you came to see me
Your laugh you knew I'd come to meet you
I'm not afraid of the light, I'm not afraid of the dark
Not afraid to live afraid to die
Oh.....oh.... Without you

Seasoned Hunter

Dedicated to the cause, a kindred spirit an outlaw
Anticipating, running wild

Seasoned Hunter, unchallenged warrior
She always gets her man,
She's a Seasoned Hunter, unchallenged warrior
Try and stop her if you can

Fascinated by the prey consumes her kill without delay
Lingering, tasting victory

Untamed, unchained and running wild
Untamed, unchained and running wild
Tasting victory

Murihiku

Will you listen to what I say?

Come on everybody take a look around
At this beautiful country, it rockin towns
This place is lent it's a treasure sent
For our children's children who will govern it
So take good care of our environment
They will pay for any foolishness

Majestic trees rich coastal breeze
The most beautiful places you have ever seen
No matter where you're from we've got it going on
So rich, so proud, so strong

Murihiku o Aotearoa, my hometown
Come on everybody take a look around
At this beautiful country, it rockin towns
This place is lent it's a treasure sent
For our children's children who will govern it
So take good care of our environment
They will pay for any foolishness

Feel the Deep South glow or maybe take it slow
See the hills, see the rivers or the valleys below
No matter where you're from we've got it going on
So rich, so proud, so strong

Now for those of us who are lucky enough
To see the century turn anew
If you give a dam, reach out your hand
Who will be reaching to you?

Mother of Mine

You helped me grow, allowed me to go, live my life
Thank you

For the love that you've gave

Through so much heartache, how brave, how brave you are
Sweet Mother

When I'm away chasing my dreams, just so busy it seems
Know that I'll always be holding you dear

You'll always be my angel

You'll always be an inspiration, to me

You give the world, much more than you can afford

And I love you sweet mother, sweet, sweet Mother

I love you sweet mother, of mine

Thru thick n thin, you've always been a guiding light

Thank you

For the love you shared, for the people you cared for

You heal the world

Sweet Mother

And as the seasons they do fly

And many tears pass us by

Know that I'll always be holding you near

Shake Your Thing

Bring in on now, bring it on down now.
Coming through

Shake your thing, we're here, we're gonna rock the house
We wanna hear you scream and shout,

Now shake **your** thing, shake your thing

We're gonna fight for the right to hear you, hear you sing..
Don't mess with the best coz the best don't mess
Come on and shake your thing

Feel the fever all around,
Everybody's getting down
Come on people gather round, and let go

Shake your thing, we're here, we're gonna rock the house
We wanna hear you scream and shout,

Now shake your thing, shake your **thing**
